Buenos Aires, Argentina

ARRIVE IN BUENOS AIRES, ARGENTINA

Day 1

Upon arriving in this cosmopolitan city, known for its architecture and rich European heritage, you will independently transfer to your group hotel (pre-expedition hotel night included in mandatory transfer package).

Ushuaia, AR

FLY TO USHUAIA AND EMBARK

Day 2

After an early breakfast at the hotel, the group will transfer to the airport and board our private charter flight to Ushuaia, Argentina Upon arrival, you will be transferred from the airport to a central downtown location for free time on your own to explore this quaint port town before making your way to the pier. As the ship sets sail in the late afternoon, you will begin your Antarctic journey, passing through the historic Beagle Channel. Named after the famed ship on which Charles Darwin voyaged, the channel presents great photo opportunities of landscapes and seabirds. Eventually the channel opens up to the Southern Ocean, and onwards to Antarctica.

Cruising

CROSSING THE DRAKE PASSAGE

Days 3 and 4

Your days at sea are filled with presentations led by your Expedition Team on photography, wildlife, glaciology, and history. You can also spend time on deck looking for wildlife, or chatting with your shipmates over a drink at the bar.

Cruising

SOUTH SHETLAND ISLANDS AND ANTARCTIC PENINSULA

Days 5 to 7

The most common reaction upon reaching the Antarctic Peninsula is a sense of reverence and awe. The experience is beyond words, since few places are as untouched and enduring as Antarctica. You will begin to appreciate why this region has long captivated the attention of explorers and travelers alike. Every visit to Antarctica, we witness something new or unexpected, which means that your expedition will be unlike any other—creating a unique, personal experience. Each day, you will take Zodiac excursions from the ship to explore local bays, channels and landing sites. With wildlife always at the forefront of our minds, you will visit penguin rookeries, scout for humpback and minke whales, and search for a number of southern seal species, including the elusive leopard seal. Your Expedition Team will take care of you at each landing, whether you are exploring the Antarctic terrain, visiting a research station or consorting with penguin colonies. Chinstrap, Adélie and gentoo penguins are found here, along with five different species of seals. Zodiac cruising can offer opportunities to view some of the larger local marine mammals more intimately, such as Antarctic minke and humpback whales. Days 5 to 7 are also ideal times to experience Ultramarine's portfolio of helicopter- supported adventures exclusive to Quark Expeditions. Your days will be busy spotting wildlife and being mesmerized by the astounding beauty of Antarctica. Listening to the crackling and crumbling of icebergs and glaciers and watching penguins waddling on the beach will become your daily entertainment, while heli flightseeing, sea kayaking or paddle excursions are optional activities available on select voyages (at an extra cost).

Cruising

ANTARCTIC CIRCLE

Days 8 and 9

Crossing the Antarctic Circle is both a memorable experience and impressive achievement, as few travelers reach so far south. If conditions allow us to cross this famed latitude of 66°33′ S, we'll toast the first explorers who ventured here, and you can raise a glass and take pride in knowing you've made it to a part of the world visited by very few people. This is raw Antarctica, home of the midnight sun, Weddell seals, and your best chances of encountering sea ice—the very foundations of the Antarctic marine ecosystem.

Cruising

NORTHBOUND ALONG THE PENINSULA

Days 10 and 11

By now, your knowledge of Adélie, chinstrap and gentoo penguins will be matched by your ability to differentiate between a leopard, crabeater and Weddell seal. Terms like 'bergy bits' and 'pancake ice' will become part of your vocabulary, yet there are still many tales to be told. As you head north, Zodiac excursions will fill your days, and your Expedition Team will continue looking out for species of seabirds, seals and whales that may have eluded you on your journey south.

Cruising

CROSSING THE DRAKE PASSAGE

Days 12 and 13

As you recross the Drake, Antarctica fades away, leaving you with a collection of memories to last a lifetime. Excited conversations with your newfound friends will make the crossing fly by, regardless of weather and sea conditions. Your Expedition Team will round up its series of presentations as well, with a slideshow of the adventures you've shared and wildlife you've witnessed over the course of your voyage. Be sure to take some time to reflect on everything you've experienced so far.
