Buenos Aires, Argentina

ARRIVE IN BUENOS AIRES, ARGENTINA

Day 1

Upon arriving in this splendid city, known for its vibrant Argentinian culture, European architecture and cosmopolitan vibe, you will independently transfer to the designated group hotel, which is included in your Charter Flight & Hotel package.

Cruising

FLY TO USHUAIA AND EMBARK

Day 2

After an early breakfast at the hotel, the group will transfer to the airport and board our private charter flight to Ushuaia, Argentina. Upon arrival, you will be transferred from the airport to a central downtown location to explore this quaint port town on your own before making your way to the designated meeting spot. After a late afternoon embarkation, you will sail along the historic Beagle Channel, which transects the Tierra del Fuego archipelago in the extreme south of South America. Excitement builds in anticipation of your next stop: Antarctica.

Cruising

AT SEA

Day 3

Your days at sea are filled with presentations led by your Expedition Team on photography, wildlife, glaciology, and history. In between presentations, spend time on deck looking for wildlife or chatting with your shipmates over a drink at the bar.

Cruising

FALKLAND ISLANDS (ISLAS MALVINAS)

Days 4 and 5

Upon your arrival in the Falklands (Malvinas), your camera will get its first real workout capturing the abundant wildlife and rugged feel of this sub-Antarctic region. The archipelago contains two main islands, East Falkland and West Falkland, which you will explore during daily Zodiac excursions and landings. Stanley, also known as Port Stanley, is a favorite landing site, as the town offers a unique British outpost feel, complete with eclectic charm. You'll be free to explore, grab a pint at the local pub, or visit the numerous churches and museums. The archipelago is rich in wildlife, especially birds, and home to Magellanic, gentoo and southern rockhopper penguins. If you're lucky, you may even spot king penguins here as well. Chances are good that you'll see black-browed albatross, plus two endemic bird species—the flightless Falkland steamer duck, and possibly, the elusive Cobb's wren. Your team of polar experts will enrich your understanding of the local flora and fauna, helping you make the most of your time in the Falklands.

Cruising

AT SEA

Days 6 and 7

Sailing southeast to South Georgia, you'll officially enter Antarctic waters once you cross the Antarctic Convergence, an invisible biological boundary encircling the continent. This meeting of oceans, where the cold Antarctic waters mix with the warmer waters of the Indian, Pacific and Atlantic oceans, helps nourish the abundance of krill that attracts whales, seals, and birdlife to this part of the world. Your Expedition Team will notify you when you cross this invisible yet important line, and will also help you look out for the seabirds and marine life that frequent this nutrient-rich area.

Cruising

SOUTH GEORGIA

Days 8 to 11

This remote, mountainous island was a popular stop for many historic Antarctic expeditions and was once a center for whale- and seal-hunting. Today, island wildlife populations are rebounding, but you'll still see remnants of old whaling stations and other abandoned outposts. Among the most significant and moving sites on South Georgia is the burial spot of the great explorer Sir Ernest Shackleton. You can visit his grave at the settlement of Grytviken, which is also home to an old whaling station, plus a museum, gift shop, church and small research station. Although South Georgia's history is an important attraction to the island, it is the tremendous abundance of wildlife that surely captivate you and your shipmates. Each landing you make on South Georgia, often referred to as the Galapagos of the Poles, will give you opportunities to witness huge populations of wildlife. One day you may see rookeries with hundreds of thousands of pairs of king penguins waddling on shore, and the next, you may visit another beach dominated by hundreds of fur or elephant seals. The grasses, mountains and beaches of South Georgia all play an important role in the breeding and survival of different species on the island. Your Expedition Leaders will help you understand and appreciate the delicate balance among these fragile and interwoven relationships.

Cruising

AT SEA

Days 12 and 13

Say goodbye to the king penguins, as your next destination is Antarctica. Your days at sea are filled with presentations, workshops, and social activities led by your Expedition Team.

Cruising

SOUTH SHETLAND ISLANDS AND ANTARCTIC PENINSULA

Days 14 to 16

The most common reaction upon reaching the 7th Continent is a sense of reverence and awe. The experience is beyond words, since few places are as untouched as Antarctica. You will begin to appreciate why this region has long captivated the attention of explorers and travelers alike. Every time we visit Antarctica, we witness something new or unexpected, which means your expedition will be unlike any other—creating a unique, personal experience. Each day, you will take Zodiac excursions from the ship to explore glaciated bays, channels and landing sites. Your Expedition Team will take care of you at each landing, whether you are hiking the Antarctic landscape, visiting a research station or observing chinstrap, Adélie and gentoo penguins, all of which can be found here. Keep an eye out for Weddell, fur, crabeater and leopard seals, as well as curious whales, such as humpbacks, minke, or perhaps orcas while on a Zodiac cruise. Each excursion will present a new array of creatures to fascinate you and keep your camera busy. Amid the serene silence of Antarctica, noisy interludes become indelible memories, such as penguins squabbling over prized pebbles, or the boom and crack of a calving glacier. Every day will be different, having been carefully crafted by your Expedition Team to inspire and educate you about this wonderful part of the world.

Cruising

ANTARCTIC CIRCLE

Days 17 and 18

Crossing the Antarctic Circle is both a memorable experience and impressive achievement, as few travelers travel so far south. If conditions allow us to cross this famed latitude of 66°33' South, we'll toast the first explorers who ventured here, and you can raise a glass and take pride in knowing you've made it to a part of the world visited by very few people. This is raw Antarctica, home of the midnight sun, Weddell seals, and your best chances of encountering sea ice—the foundation of the Antarctic marine ecosystem.

Cruising

NORTHBOUND ALONG THE PENINSULA

Days 19 and 20

If you haven't had your fill of Antarctic wildlife and icebergs by now, you'll surely be satisfied by the time you return to the Drake Passage. You will continue to make excursions by Zodiac as you travel north along the western Antarctic Peninsula. Your Expedition Team will always be on the lookout for species of seabirds, seals and whales that may have eluded you on your journey south.

Cruising

CROSSING THE DRAKE PASSAGE

Days 21 and 22

After more than three weeks of rare wildlife sightings and remarkable Antarctic landscapes, guests leave with a collection of memories to last a lifetime. Excited conversations with your new-found friends will make the crossing pass quickly, regardless of weather and sea conditions. Your Expedition Team will wrap up its series of polar presentations, as well, with a slideshow of the adventures you've shared and the wildlife you've witnessed over the course of your voyage. Be sure to take some time to reflect on everything you've experienced so far.

Cruising

DISSEMBARK IN USHUAIA AND FLY TO BUENOS AIRES

Days 23 to 22

You will arrive in Ushuaia in the morning and disembark after breakfast, then make your way to your group charter flight to Buenos Aires.
