The remainder of your time is at leisure. All meals today are at your own expense. Accommodation: Clarion Hotel The Edge (or similar).

Day 2 Embarkation	This morning, please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Your luggage will be collected from your hotel and transferred directly to the port for clearance and delivered to your cabin ahead of your arrival on board. Please keep any valuables or personal items with you throughout the day. After a leisurely morning, check-out and embark on a historical walking tour of Tromsø, the gateway to the Arctic. Walk in the footsteps of Roald Amundsen the historic explorer and learn about the polar history of Tromsø, which has historically been the starting city for several polar expeditions. Transfer to the pier for embarkation in the late afternoon, when you will have time to settle into your cabin before attending our mandatory safety briefings and enjoy the thrill of departure as we 'throw the lines' and set sail. This evening, get to know your fellow expeditioners, friendly expedition team and crew at the Welcome Dinner to celebrate the start of a thrilling adventure.
Day 3 Torsken for Ånderdalen National Park, Norwegian Coast	Over the next few days, we explore parts of Norway's remarkable 1,000-kilometre (600-mile) coastline. Starting in Torsken, in the very north of the country, we make our way south, stopping in the Lofoten Islands. The spectacular northern lights are a natural phenomenon that is most commonly seen in the sky above the Arctic Circle, between autumn and early spring. As we are near Ånderdalen National Park in northern Norway, keep a close watch in hope of witnessing this dazzling spectacle in the night sky. Embark on a leisurely amble through the quaint village of Torsken, where breathtaking natural beauty provides a captivating backdrop. As you meander along Torsken's narrow lanes, immerse yourself in the village's fascinating history, a rich tapestry woven from centuries of fishing traditions and the enduring spirit of its community. Admire the scenic splendour that surrounds you, with the majestic Senja mountains creating a stunning panorama and the tranquil streets lined with colourful houses, each possessing its own unique character. En route, you will have the opportunity to visit Torsken Church, a cherished local landmark dating back to the 18th century. Before your exploration concludes, indulge your palate with a selection of local delicacies, not only distinctive to this region but also emblematic of Norwegian culinary heritage. Personalise your expedition with our included 'Your Choice' experiences that best suits your interests and level of fitness. Day 5 Leknes & Reine, Norwegian Coast	As you traverse the scenic vistas of Lofoten, marvel at majestic mountain peaks and expansive fertile lands that once set the stage for Viking sagas. Your expedition begins in Haukland Beach, a paradisiacal haven with its pearly white sands and sapphire waters, embraced by lush greenery and towering peaks, evoking the essence of an Arctic paradise. We will have ample time to hike from Uttakleiv to Haukland Beach—a gentle stretch over hills and along the coastal path to the pristine white sand beach. Upon reaching the Viking Museum in Borg, enjoy an exhibition showcasing archaeological discoveries and meticulous recreations of Viking dwellings, gaining a vivid understanding of the daily lives of these seafaring people a millennium ago. The museum endeavours to authentically recreate the Viking village atmosphere, complete with handicrafts, traditional buildings, and era-specific cuisine. As part of this immersive experience, you will be treated to a soup crafted from an ancient North Norwegian recipe, prepared over an open fire—a culinary journey back in time amid the fascinating history of the Vikings. Drive through the scenic landscapes of Lofoten to Norway's renowned Sund where you will visit a Blacksmith at the Fishery Museum, famous for his beautiful cormorants made of steel. The decorative wrought iron cormorants are famous all over the world and can be found in the Pentagon, the Kremlin, and in the King of Norway's palace. Continue to the village of Reine where your ship will be waiting for you. This fishing village is one of the most beautiful in Norway, and we are sure that when you see it you will understand why.
Day 6 At Sea	Enjoy the crossing to Jan Mayen, accompanied by seabirds as we search for whales. Enjoy informative talks from our team of experts, get to know your fellow expeditioners or stay active in the gym. Remember to look to the skies at night and hope for sightings of the northern lights.
Day 7 Jan Mayen	The approach to Jan Mayen is spectacular. The huge 2,277-metre (7,470 foot) Beerenberg volcano is the northernmost active volcano in the world, and it last erupted in 1985. The northern part of the island is a great place to look for whales and dolphins and contains impressive glaciers, some of which reach the sea. If the weather is favourable, we will try to land at Kvalrossbukta, a relatively sheltered bay on the island's west coast. This is one of the landings used to supply the weather station Olonkinbyen, situated on the eastern side of the island.
Day 8 At Sea	Enjoy the crossing to East Greenland, accompanied by seabirds as we search for whales. Enjoy informative talks from our team of experts, get to know your fellow expeditioners or stay active in the gym. Remember to look to the skies at night and hope for sightings of the northern lights.

Day 9-13 East Greenland	In the coming days, a host of choices are available to us, and depending on ice and weather conditions, the east coast of Greenland is ours to explore. The members of our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our voyage to suit the day-to-day conditions. This allows us to make best use of the prevailing weather, ice conditions and any opportunities for wildlife encounters. We generally attempt up to two landings or Zodiac excursions per day, including cruising along spectacular ice cliffs, following whales feeding near the surface. Be prepared to experience ice – and lots of it! East Greenland contains some of the Arctic's most impressive scenery. Deep fjords and narrow channels, flanked by sharp ice-clad peaks soaring up to 2,000 metres (6,562 feet), and glaciers birthing gigantic icebergs that drift throughout the fjord system, combine to create breathtaking scenes. The tundra landscape is home to musk oxen, arctic hares and reindeer. Throughout the area there are ancient Thule archaeological sites, historical trappers' huts, and the cabins of present-day Inuit hunters. A highlight is a visit to the Inuit village of Ittoqqortoormiit, the most isolated and northernmost permanent settlement in the region, with approximately 450 inhabitants. The community has an excellent museum, gift shop, an abundance of Greenlandic sled dogs and provides the opportunity to meet the friendly locals. Explore Scoresbysund, the world's largest fjord system and a favourite hunting ground of the local Inuit. Massive glaciers flow into this fjord, the birthplace of hundreds of majestic Greenland icebergs. It is a spectacular place that simply needs to be seen to be believed. North of Scoresbysund lie Kong Oskar and Kaiser Franz Josef fjords, two of the most significant fjord systems in Greenland, each one encompassing several smaller fjords and sounds. Thanks to the fertile volcanic soil and the surrounding mountains offering protection from strong winds, the area is rich in wildlife. You may spot everything from musk oxen and arctic foxes to mountain hares, and even reindeer, near the fjord. Look skyward and you could catch a glimpse of birds, including the glaucous gull, black-legged kittiwake, northern fulmar, common raven and common eider.
Day 14 Ísafjörður & Vigur Island, Westfjords	Over the coming days, we explore the Westfjords region, which features outstanding landscapes with jaw-dropping views of dramatic fjords carved by ancient glaciers, sheer, table-top mountains that plunge into the sea, and pristine north Atlantic vegetation. The region features attractive towns such as Isafjordur, surrounded by sheer mountains and steeped in history, evident in its preserved wooden architecture. Delight in its lively cultural scene and abundant outdoor activities. On Vigur Island enjoy walks and hikes of varying levels of difficulty, soaking in the stunning surrounds. Stroll along the coastline, keeping an eye out for whales, or venture deeper into the island to discover hidden gems. With its rolling hills, picturesque landscapes, and fresh sea air, Vigur offers an unforgettable experience.

Day 15 Snaefellsnes Peninsula	Grundafjordur is the starting point of our adventures on the Snaefellsnes Peninsula, gateway to Snæfellsjökull National Park. Snaefellsnes Peninsula is an area of diverse landscapes that is characterised by lava fields and glistening fjords and home to a vast array of birdlife. The area is crowned by the magnificent, ice-capped Snæfellsjökull volcano, a 700,000-year-old dormant subglacial volcano, visible from Reykjavik on a clear day and immortalised in Jules Verne's Journey to the Centre of the Earth. Personalise your expedition with our included 'Your Choice' experiences that best suit your interests and level of fitness.Option 1 - Highlights of Snaefellsness (Duration: 8 hours including lunch / Level of difficulty: Easy-Moderate, dependent on fitness). Our first stop will be the iconic Mount Kirkjufell, a favourite among photographers and known to many as a filming location for the TV show "Game of Thrones". Not far from this majestic mountain is a waterfall that completes the picturesque scene. Next, you will visit Snæfellsjökull National Park, encompassing a large area of Snæfellsnes Peninsula's western tip. For the more active, explore some incredible hiking trails, or simply enjoy your drive through the park and take in the beauty that surrounds you. Continue to the dramatic black pebble beach of Djúpalónssandur, where you can marvel at the black sands and colossal rock formations, volcanic landscapes, and remains of a 1948 shipwreck. Following lunch, re-join the coach to travel to Búðir, a picturesque hamlet surrounded by the stunning landscapes of the Snæfellsnes Peninsula. Stop to admire Búðakirkja, the 19th-century church and explore the area before embarking the ship in Arnarstapi.Option 2 - Natural Wonders of Snaefellsnes (Duration: 8 hours including lunch / Level of difficulty: Moderate). Upon disembarkation, we will stop at the iconic Mount Kirkjufell, a favourite among photographers and known to many as a filming location for the TV show "Game of Thrones". Not far from this majestic mountain is a waterfall that completes the picturesque scene. Next, you will step into the 8,000-year-old Vatnshellir Cave, replete with stunning geology, fascinating rock formations, and colourful volcanic rock. We will meet at our base near the cave, where your friendly guide will provide you with all the equipment that you need, including a helmet and headlamp. It is recommended that you wear comfortable and sturdy footwear, as the volcanic rock can be quite difficult to traverse. Then your friendly guide will give you a brief safety talk before we descend the spiral staircase into this subterranean wonderland. The tour meanders through the path of the lava flow around 200 meters into a large cave that lies around 35 meters beneath the surface of the earth, where we will be greeted by some rainbow-coloured volcanic rocks and incredible petrified lava formations. The cave is a fairly easy walk, although it will involve a degree of climbing. Following lunch, re-join the coach and travel to Arnarstapi and hike the coastal trail that connects the two villages of Arnarstapi and Hellnar. Now a National Reserve, this easy level hike encompasses geology, wildlife, amazing photo opportunities, folklore and most of all adventure. This old trail takes us along the wild shoreline with a view of the ocean and extraordinary columnar basalt and lava cliff formations on one side and stunning mountains and Snæfellsjökull Glacier on the other. The cliffs are alive with a wide range of bird species such as the Arctic Tern, the kittiwakes, gulls and fulmars.Option 3 - Snaefellsnes Adventure (Duration: 8 hours including lunch / Level of difficulty: Moderate-Difficult). The Land of Fire and Ice is well-known for its incredible landscapes and contrasting terrains that include several natural and geological wonders rarely found anywhere else on Earth. The unique geological history of Snæfellsnes will draw you in where you can explore sites revealing Iceland's unique geological history up close. Your first stop is at Eldborg crater, located on a short volcanic rift, just 200 metres in diameter, and 50 metres deep. It is the largest crater on this rift and was created in an eruption which occurred somewhere between 5000 and 6000 years ago. Unlike many of Iceland's volcanoes, it has a very classic shape, with smooth sloping sides and a very definite crater. A marked hiking path leads through a shrub-covered lava field to the top of the crater offering incredible views of Snaefellsnes National Park. We continue to the symmetrical, hexagonal-shaped basalt columns at Gerðuberg Cliffs. Stand in awe at these impressive cliffs, a natural marvel that spans 500 metres. To enjoy the best view, take a walk by the structures. Climbing up the cliff is possible but to really soak in the views of this geological structure, it is best to enjoy a walk alongside the cliffs. Following an early lunch, re-join the coach and head for the Pufubjarg bird cliff, home of nesting puffins and fulmars. From here, hike along the rugged coastline to witness the exceptionally beautiful Londrangar basalt cliffs, a geologic wonder that looks like a huge rock castle. There are many local birds here, and they are a noisy bunch. Puffins, but especially fulmars, nest in the many cavities in the two pillars. From here you hike across a pretty lava field covered in moss to Malarrif, where you can see the lighthouse and explore the beach.
Day 16 Disembark in Reykjavik	During the early morning, we cruise into Reykjavik and disembark at approximately 8.00 am. Farewell your Expedition Team and fellow passengers as we all continue our onward journeys. Transfer to Keflavik airport.*Note: At the conclusion of the voyage, we recommend booking flights departing after 12.00 pm on the day of disembarkation in case there are delays.
