Valparaíso
Sa., 31. Jänner

Tag 1

Since time immemorial Valparaíso has inspired writers, poets, musicians and artists alike. If the city is still a little rough around the edges, this only adds to its bohemian ambience; the architecture, style, street art, nightlife, and live music scenes of Valparaíso are some of the best in the world. Add colourful cliff-top homes to the mix and you'll soon see why Valparaíso is many people's favourite Chilean city. The city was founded in 1536 by Spanish conquistador Juan de Saavedra, who named the city after his birthplace. Many of the colonial buildings he implemented are still standing today, despite the rain, wind, fire and several earthquakes (one of which almost levelled the city in 1906). Quirky architecture also abounds; poetry lovers and amateur architects will no doubt want to make the 45 km trip south to Chilean poet laureate (and Nobel Prize winner) Pablo Neruda's ship-shaped house and museum for a taste of the extraordinary. The city and region are also extremely well known for their love of good food and wine. The vineyards of the nearby Casablanca Valley - first planted in the early 1980s - have earned worldwide recognition in a relatively short space of time. However, Chile's viticulture history does date back much farther than that. De Saavedra brought grape vines on his voyage to South America in order to make his own wine and this led to a new grape brandy being created, Pisco. Today give any Chilean a Pisco and wherever they are in the world, they will be home.

Days at sea are the perfect opportunity to relax unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan these blue sea days are the perfect balance to busy days spent exploring shore side.

Puerto Montt

Tag 4

For most of its history, windy Puerto Montt was the end of the line for just about everyone traveling in the Lake District. Now the Carretera Austral carries on southward, but for all intents and purposes Puerto Montt remains the region's last significant outpost, a provincial city that is the hub of local fishing, textile, and tourist activity. Today the city center is full of malls, condos, and office towers—it's the fastest-growing city in Chile—but away from downtown, Puerto Montt consists mainly of low clapboard houses perched above its bay, the Seno de Reloncaví. If it's a sunny day, head east to Playa Pelluco or one of the city's other beaches. If you're more interested in exploring the countryside, drive along the shore for a good view of the surrounding hills.

Cruise Chilean Fjords
Do., 5. Februar

Tag 6

Strewn through the coast of Chile, these beautiful fjords are world renowned for being one of the most awe-inspiring places on earth. Snow-capped volcanoes nestle majestically alongside rolling valleys of ice and frosty glaciers. Rugged beauty, breathtaking scenery not to mention diverse and profuse wildlife abounds – expect to watch whales from the deck, see playful Magellan Penguins and perhaps even spot the rare Andean Condor. Affectionately named “The End of the World” by the Spaniards who discovered the region in eighteenth century in a quest to Christianise South America, these extraordinary waterways not only encompass a medley of jagged mountains and iceberg strewn bays, but feature a kaleidoscopic spectrum of unexpected colour that offers photographic opportunities like no other destination.

Punta Arenas

Tag 7

Welcome to Chile's City at the End of The World – a wind-whipped, fractured land of islands, glacial fjords and mountains, which drop away towards Antarctica. A hardy city, where the temperature hovers in single figures throughout much of the year, Punta Arenas nevertheless offers a warm welcome and refuge, ahead of - and following - epic adventures and expeditions south across the Drake Passage. Captain Scott stopped here in 1904 – testing the postal service sending 400 letters of his successful return - and the city welcomed the rescued Ernest Shackleton and his Endurance crew to these shores in 1916. Punta Arenas is a remote place, but with custom-free status, and more than 120,000 people calling it home it's also surprisingly cosmopolitan. The commercial centre of Magallanes Punta Arenas is fueled by Chilean oil and gas - and establishing itself as a global centre for Antarctic research, with teams from various countries basing themselves here. The town is built around the Plaza de Armas, its central square - be sure to kiss the toe of the Monumento del Indio Patagon statue, said to guarantee you good luck on your return. Look down across this colourful city, stretching out to meet the waters of the Straits of Magellan, from the viewpoint at Cerro De La Cruz. Natural wonders abound in the region, whether it's Alberto de Agostini National Park's glacial sculptures, or Torres del Paine National Park's soaring mountains, rushing waterfalls and picturesque lakes. Offshore, in the Strait of Magellan, you can find the birdlife sanctuary of Magdalena Island - an uninhabited island, where hundreds of thousands of penguins march and crowds of cormorants and gulls call out.

Garibaldi Fjord & Glacier

Looming like a colossal river frozen in the icy hold of time – the first time you set eyes on the Garibaldi Glacier will live with you forever, sending shivers down your spine that are absolutely nothing to do with the fjord weather's chill. A stunning, unimaginably vast wedge of slowly creeping blue-white ice the glacier is a fitting climax to the voyage through the cinematic majesty of the Garibaldi Fjord. Sail amid tumbling waterfalls, tightly-packed forestry and soaring mountains as you explore the glacier-sculpted Parque Nacional Alberto de Agostini – the newest member of Chile's exclusive club of extraordinary remote National Parks. Spread across the fractured lands of South America's southern tip: this is the dramatic region where the peaks of the Andes mountain range plunge down into the depths of the icy ocean, generating some of Chile's most spectacular scenery. You may witness occasional chunks of the ancient ice calving and plunging spectacularly into the waters below as the glacier continues its gradual retreat. The fresh chunks of ice add to the floating confetti of tiny frozen islands all around you –ranging in hues from creamy whites to electric blues. It may appear like a frigid unforgiving environment at first glance but the fjord is alive with unique fauna and flora and recognised by UNESCO as a Biosphere Reserve. Full of diverse ecosystems you can spot penguins, sea lions and Peruvian condors all adding to the rich tapestry of life here.

A southerly frontier - on the cusp of wild nature and extraordinary adventures - the excitement in Ushuaia is palpable. Prepare for memorable exploits amid the extremes of this southerly location - as you adventure into the colossal scenery of the fractured Tierra del Fuego and beyond. Known as the 'End of the World' Ushuaia looks out across the Beagle Channel, and is surrounded by the Martial Mountains to the north. Despite its remote location, Ushuaia is a surprisingly busy and lively resort, with lots to keep its visitors entertained. For many people, Ushuaia is their last glimpse of anything resembling a city, before they jump off the map into the wilderness, to answer the call of immense national parks or Antarctic expeditions. One of the most dramatic landscapes on the planet - Argentina's land of fire, National Park Tierra del Fuego, is a place of titanic natural forces and limitless beauty. Snow-covered mountains poke the sky, while glaciers spill down between peaks, and gaping fjords open up. With incredible wildlife - from penguins to whales - the park offers some of South America's most amazing hiking opportunities and panoramas. When it comes to food in Ushuaia, locals cook up fierce flavours using the freshest ingredients. King crab is one of the most popular dishes, while sea bass - hauled freshly from the waters - and mounds of meaty mussels - known as cholgas - are also on the menu here.

Sailing the legendary Drake Passage is an experience that few are ever lucky enough to experience. The southern tip of the Americas already feels like a wild enough environment - but the sensation of watching the distant cliffs of the peninsular known as the 'End of the World' fade into the horizon, is one that's equal parts epic, eerie and magical. Set sail, to slowly drop off the bottom of the map from Cape Horn, and voyage on an expedition down into the icy underworld of Antarctica. Drake Passage is an extraordinary voyage of romantic ocean faring legend, as you aim for Antarctica's icy realm. On arrival, skyscraper sized icebergs salute you, as you traverse the waters of this continent where snow and ice dwelling creatures like penguins and whales roam undisturbed. Your first sight of this most-unexplored place will most likely be the South Shetland Islands. Walk in the footsteps of some of history's greatest and bravest explorers as you explore famed, snow-covered landmasses like Elephant and Deception Island. If the journey across Drake Passage sounds daunting, don't worry - even in rough seas you're never alone, and will often be accompanied on this spine-tingling adventure by soaring albatrosses and maybe even a protective pod of humpbacks and hourglass dolphins or two. Converging warm and cool ocean currents attract some spectacular animal life to the passage.

Stretching up from the heart of the world's southernmost continent the Antarctic Peninsula lies a mere 620 mile from Tierra del Fuego and for many offers a spectacular first taste of the snow-blanketed landscapes and colossal ice sculptures which make up Earth's least-explored continent. Unseen by humans until 1820 - a blink of an eye ago in relative terms - this is an adventure sure to make your hairs stand on end as you experience the thrill of the truly unknown and extraordinary. The vast peninsula is sprinkled with research bases which are at the frontline of human scientific endeavour pushing to study and understand this unique landscape, its exceptional wildlife and the impact that humans are having on this pristine continent. Witness cathedral-sized icebergs up close and blue-hued glaciers slowly slipping from imposing locations.

Port Stanley

Despite it being a stalwart of Britishness, Stanley more resembles Patagonia than Portsmouth. But, despite the windswept, vast and achingly beautiful landscape of the Falkland Islands, don't be too surprised to find the odd pub serving ales and even fish'n'chips. While landmarks such as Christ Church Cathedral, with its whalebone arch are 100% local, there is a also good smattering of imported garden gnomes and Union Jacks to remind you whose territory you are really on. The Falkland Islands' ownership has long been a matter of controversy, ever since colonisation in the 18th century. At various points in their life they have been considered French, British, Spanish and Argentine. The Falklands War in 1982, despite only lasting for a short while, proved that the Brits clung to this remote outpost and the islands remain part of the British Commonwealth today. Margaret Thatcher, under whom the war was masterminded, remains something of a local hero as can be seen in the street signs (such as Thatcher Drive). For those who want to dig deeper into the past, the Historic Docklands Museum provides lots of information on the chequered historical and political background of the Falklands. However, the true heroes of Stanley are of course the thousands and thousands of penguins. Five species nest here during mating season (including the rare rockhopper penguin). There are virtually no barriers between you and the wildlife; allowing for a truly interactive, authentic and totally unforgettable experience.

 Puerto Madryn
 Di., 17. Februar
 Ankunft 08:00

Overlooking the vast Golfo Nuevo the northern Patagonian town of Puerto Madryn is one of Argentina's top whale-watching spots. Founded by Welsh explorers who arrived aboard the Mimosa ship in 1865 Puerto Madryn welcomes visitors to enjoy its wonderful wildlife traditional tea shops and sheep-rearing ranches known as estancias. An astonishing array of animals call the protected Valdes Peninsula home. See penguins wandering sea lions yawning lazily and playful guanacos galloping here. Head to the beaches of Estancia San Lorenzo to hear the racket made by hundreds of Magellan penguins. The blackened beach of Loberia de Punta Loma bears witness to huge elephant seals rising up and clashing dramatically – or lounging around docilely - and you can even take advantage of the opportunity to swim snorkel and scuba dive with curious and playful sea lions. Further afield Tombo National Reserve is a vast breeding ground for birds and penguins while a huge Magellanic penguin colony 1 500 000 strong spreads out further south at Punta Tombo. Boats roll out from Puerto Madryn on the hunt for Southern Right Whales and orcas among the many marine mammals who move through the waters offshore. Few experiences compare with feeling the salt spray as giant humpbacks crash against the surface. Look out for the black and white Commerson's dolphins too which are some of the smallest members of the dolphin family.

 Punta del Este
 Fr., 20. Februar
 Ankunft 08:00

The fingertips of a showstopping sculpture, emerging from Punta Del Este's golden sands, is the perfect example of this chic beach city's creative outlook. Stunning stretches of shining sands line the peninsula's coast, attracting the great and glamorous from across Uruguay and Argentina. Drawn to the beautiful beaches of this seaside city, the well-heeled visitors are joined by a flotilla of yachts, which park up for summer in the 'Monaco of the South' - the continent's city to see and be seen. One of Punta del Este's main beaches, Playa Mansa, enjoys calms seas and a sun-soaked location - overlooked by a soaring lighthouse, which is orbited by gliding sea birds. The sand is soft and inviting, so lie back to soak up the intense sun, before views of Gorriti Island just offshore. On the other side is Playa Brava, where the city's signature artwork, 'The Hand' - one of many quirky sculptures that litter the streets - grasps at the sky. Relax your way - whether that's cracking golf balls along coastal courses, cycling beside washing waves, or swimming in tempting waters. Bustling nightlife, art galleries, and museums give Punta del Este an artsy, eclectic atmosphere. Close to the port, you can discover fancy restaurants, serving up stacks of fresh seafood - and enjoy opulent meals while relishing golden views down over the port, where lavish yachts and modest fishing boats mingle. Head down to the harbour to see fishermen selling freshly caught produce and sea lions gathering to feast on the scraps.

Montevideo
 Sa., 21. Februar

Tag 22

Uruguay's capital city hugs the eastern bank of the Río de la Plata. A massive coastal promenade (malecón) that passes fine beaches, restaurants, and numerous parks recalls the sunny sophistications of the Mediterranean and is always dotted with Montevideans strolling, exercising, and lounging along the water. Montevideo has its share of glitzy shopping avenues and modern office buildings, balanced with its historic old city and sumptuous colonial architecture, as well as numerous leafy plazas and parks. It is hard not to draw comparisons to its sister city Buenos Aires across the river, and indeed Montevideo strikes many as a calmer, more manageable incarnation of Argentina's capital. When the weather's good, La Rambla, a 22-km (14-mile) waterfront avenue that links the Old City with the eastern suburbs and changes names about a dozen times, gets packed with fishermen, ice-cream vendors, and joggers. Around sunset, volleyball and soccer games wind down as couples begin to appear for evening strolls. Polls consistently rate Montevideo as having the highest quality of life of any city in Latin America. After one visit here, especially on a lovely summer evening, you probably will agree.

Buenos Aires
 So., 22. Februar
 Ankunft 07:00

Tag 23

Passionate, and alive with an infectious crackling energy, the Argentine capital is a breathlessly romantic city, which blends old-world colonial architecture with a down-to-earth Latin American clamour. Famed for steamy tango interplays, and expertly seared steak slabs, a visit to Buenos Aires is a fiery fiesta for the senses. Parque Tres de Febrero is a 400-hectare oasis where 18,000 rose bushes bloom, and skyscrapers give way to still lakes and pretty paths of rollerblading locals. Mighty palm trees - that look like exploding fireworks - stand tall in Plaza de Mayo, the heart of this sprawling cosmopolitan capital of 48 barrios. The square has served as the stage for many fundamental events in this country's history, and the location where the seeds of independence were sewn continues to serve as the city's gathering point - and is a place for solidarity, rebellion and revolution. The presidential Casa Rosada's salmon-hued Palatial Palace borders the plaza, while nearby Museum Nacional de Bellas Artes houses the largest collection of public art in Latin America. Teatro Colón, the opulent 1908 opera house, is one of the world's finest venues - musical performance here take on an ethereal quality, with the exceptional acoustics transferring every quiver of bow, and tremor of vocal cord, to the audience in spine-tingling clarity. The gargantuan, precipitous terraces of Bombonera Stadium form another of Buenos Aires's incredible venues, and a wall of noise emanates from it when Boca Juniors take to the field. Juicy steak and punchy Malbec flow in the city's parrillas - steakhouses - while glitzy bars and thumping nightclubs welcome revellers late into the night. It's not just the meat that sizzles here either - tango dancers fill milongas - dance halls - to strut passionately until the early hours. Sip steaming mate, the country's national drink, shop in covered markets, and explore Cementerio de la Recoleta - a city of grand graves and intricate memorials honouring presidents, politicians and notable Argentine heroes from history.
